

# Who is Thomas Wittig? Senior SAP Hybris Developer with **foryouandyourcustomers**, experienced professional to deliver solutions and a team player.

## What Thomas Wittig offers to you

Thomas Wittig is looking back into ten years as a developer for e-commerce and Interface solutions, focussing on the “How“ of development covered by agile processes and scrum methodology. Thus grounded, he joins teams for SAP Hybris e-commerce solutions to deliver interfaces, microservices and support. He is sustainable and reliable at coding and testing. One of his roles in the e-commerce team with foryouandyourcustomers in Essen is to hand-over stable results and to cast one last view into deliverables.

*“When I stop finding faults and testing is all done successfully my job is done for my team and my customers.”*  
Thomas Wittig

Being Intermediary, joining ends and successfully achieving team results against odds and inconsistencies are his personal and professional goals.
