

At [foryouandyourcustomers](#) we are looking for a **Technical Leader** to support us in developing Multichannel solutions for our customers.

As a full service provider, foryouandyourcustomers builds and develops multichannel platforms and commerce solutions. Our multichannel model (“Exploded View”) aligns IT and Business; focused on creating a seamless multichannel experience for our customers and their customers. We work with partners such as Amazon Web Services (AWS), SAP Hybris, Bloomreach, Fredhopper, Commercetools, Censhare, and Stibo.

As a Technical Leader at foryouandyourcustomers Amsterdam, you are ultimately responsible for the smooth delivery of our multichannel projects. You will work closely with our development team and multichannel consultants within our international cell-structured company.

Your Tasks

Besides delivering great projects:

- Mentoring and supporting team members in their way of working
- Ensuring and continuously improving the technical quality in the projects
- Establishing and ensuring a high-quality development process
- Taking part in systems architecture definition
- Ability to analyse and estimate user stories, breaking-down big tasks into smaller pieces
- Aligning with customers and defining technical requirements
- Exploring new technologies

Required Skills

- 7 + years development in enterprise environments
- Ability to translate business requirements into technical requirements and vice versa
- Scrum and Agile mindset
- DevOps mindset
- Good communication skills
- Knowledge of AWS as a development platform and server-less technology is a plus
- Express and breath foryouandyourcustomers core values as a shared identity

What we offer

- Exciting projects with international B2C/B2B companies, mainly in retail, wholesale and manufacturing with a strong focus on multichannel commerce
- Your knowledge, education and integral success stands in the foreground of all our activities
- Competitive salary
- Work in a company where your ideas are valued and you can make a difference
- Collaborate and share knowledge with an international team of experts
- A great place to work in the heart of Amsterdam
- State-of-the-art equipment and tools to work with

As an enthusiastic, decisive and entrepreneurial personality, you can expect a surprisingly simple and groundbreaking company with great colleagues.
