More about David Shulman (djs) at <https://djs.foryouandyourcustomers.com>.

#### **What David Shulman offers**

As a Senior Solutions Architect, David Shulman helps you design and build the solutions that enable you to succeed. His passion is to create simple and maintainable solutions to challenging business problems. David's motto is "Elegance in Simplicity".

"Simple can be harder than complex: You have to work hard to get your thinking clean to make it simple. But it's worth it in the end because once you get there, you can move mountains."

— Steve Jobs

#### **His Background**

David Shulman is a technical leader with extensive experience managing and advising on the delivery of strategic technical solutions utilising cutting-edge technologies and development methodologies such as DevOps/Agile, Containers, Cloud-based and Serverless computing, Micro-services, Artificial Intelligence and Blockchain. His work involved multiple industries including: E-Commerce, SaaS, Financial Services, Travel, and Consulting. As an entrepreneur, he was the CTO of three different start-ups, helping to bring them from ideation to reality in very short timeframes.

David has also held senior positions at Bankers Trust and Deutsche Bank, where he gained valuable knowledge of Banking and Finance. Throughout his professional career, he has lived and worked extensively in the USA, Eastern and Central Europe, and India, which has exposed him to various cultures and has enabled him to develop valuable skills coordinating nearshore and offshore technical resources. David has

a B.Sc. in Computer Science from Binghamton University in New York and is currently pursuing an International Executive MBA from St. Gallen University. During his time as an employee at Swisscanto London as well as IBM Switzerland, Tobias Zwimpfer was able to further develop his overall view on companies and his assertiveness in international projects.

Since June 2019, David has been a Senior Solutions Architect at foryouandyour customers in Uster advising customers in the architecture and implementation of technical solution.
