

Who is **Philip Dimitrov**? Software Developer at **foryouandyourcustomers** in Sofia and experienced Software Development Team Lead.

More about Philip Dimitrov (phd) at <https://phd.foryouandyourcustomers.com>.

What Philip Dimitrov offers

Philip Dimitrov can support you through the software development process for your product and digital transformation. With experience in Front End, Back End and Mobile Platforms, he can guide you in the specifics of your Multichannel Project. He can understand your business requirements and transform them into technical assignments, lead the software development. Based on his strong experience with various platforms, such as Commerce tools, mobile and back end. He can advise you what the standard software can offer you out of the box and how to find the shortest way from standard features to your custom requirements.

His Background

Philip graduated with a Bachelor of Computer Science in 2007, specialised in informatics, programming and already working for some big companies as Java Software Developer on the various-server side and client-side projects. Participated in many Software Training Academies as lecturer and group mentor.

Since 2009 Philip's focus has shifted a bit to mobile platforms both web and native with the growing new mobile channels created by Google and Apple. Strong focus on native mobile technologies for BlackBerry, Windows Mobile, Nokia, Android and iOS. In a few years fully focused on creating a whole digital experience for the customers covering the server-side, web and mobile client-side.

After 2012, graduating Masters of IT Project Management, Philip started participating actively in software start-up initiatives and companies, growing his knowledge in business needs, client communication and team leadership along with software development.

In late 2018 Philip joined Sofia site of foryouandyourcustomers, where he operates as a Senior Software Developer and Team Lead, extending his e-commerce expertise with the Commerce Tools Platform.

“Be less curious about people and more curious about ideas.” – Marie Curie
