More about Femila Jesline (fje) at <http://fje.foryouandyourcustomers.com>.

What Femila Jesline offers

As a Master Data Management (MDM) Software Engineer, Femila implements robust data models, keeping data quality in mind. She is an enthusiastic learner and strives to ensure the customer has the best experience and satisfaction with the deliverables. Her problem-solving skills and attention to detail, help her build relevant solutions, and her time management skills help her deliver on time.

“You know that you are in the right track, when you enjoy every moment of it, even the hardships.”

Her Background

Femila draws her experience from the many projects she has worked on over the last 8 years, in the Software industry.

After completing her Bachelor degree in Computer Science Engineering, she started her professional career as a system engineer trainee. She then progressed through different roles such as Technology Analyst, Data Analyst, Database/Robotics Process Automation (RPA) Developer and MDM Software Engineer.

Her first employer was Infosys in Chennai, India, where her responsibilities involved requirement analysis, development, testing, production support and mentoring. Femila's extensive programming and analytical skills helped her quickly progress to the lead database developer role.

After 8 years, she moved to Australia and joined Synaptron's team as a Database and RPA Developer.

There she had the opportunity to learn about automating operational tasks at a major Telecom provider.

Femila joined the foryouandyourcustomers team in May 2021, and takes great pride in being a part of the foryouandyourcustomers family. She has been certified as an Application Developer for Stibo STEP and has since been involved in Stibo implementation projects.
